

The East Rio Hondo Water Supply Corporation
is seeking 1 qualified individual for the following full-time positions:

Hydrant Maintenance Operator

Pay Type: Hourly (FLSA Non-Exempt)
Department: Field & Maintenance Operations
Reports To: Field & Maintenance Operations Supervisor
Hourly Rate: \$16.00

Job Summary:

This position's primary function is the maintenance, painting, repair of hydrants and valves, and collection of electronic data for ERHWSC's Geographic Information System Mapping (GISM). Other duties include performing hydrant flushing, flushing of ERHWSC's Distribution System as required, hydrant repairs as well as valve box adjustments, collection of water samples, and flow/pressure tests. **The starting wage for this position is \$16.00 per hour and will be increased to \$17.00 upon obtaining a TCEQ "D" Water Operator License and \$18.00 per hour upon obtaining a TCEQ "C" Distribution Operator License. All increases are approved upon a positive performance evaluation.**

Essential Functions:

- Repairs and maintains all hydrants and valves according to the standard accepted practices of American Water Works Association (AWWA) and ERHWSC standards.
- Performs preventive maintenance and repairs on hydrants to include cleaning, painting (to ERHWSC standard), repairing, replacement and/or lubrication of nozzles, caps, operating nuts, stems, gaskets, chains, etc. in accordance with the manufacturer's recommendations.
- Inspection and testing of hydrant to ensure proper operation and address deficiencies according to the standard accepted practices of ERHWSC. This would include learning industry standards for pitot test procedures.
- Locate manholes, valves, cleanouts, water meters, flush valves, hydrants, and water mains in the field utilizing a handheld Global Positioning System (GPS) data collector. Data collected will be used for ERHWSC's GISM.
- Performs hydrant/valve flushing and coordinates with the Distribution Foremen in meeting system flushing requirements.
- Adjusts and changes out valve boxes in order to maintain valve boxes in a neat and presentable condition.
- Repairs valves and pipe fittings at distribution, collection, water plants, and wastewater treatment plants as assigned.
- Must adhere to all safety policies and procedures, good housekeeping and other assigned duties.
- Must be available to work nights, weekends, and holidays when necessary.
- Will be required to be on standby and work mandatory overtime when necessary.
- Must be able to understand and follow oral and written instructions.
- Other job duties may be assigned.

Minimum Qualifications:

High School Diploma, GED or vocational school certification from an accrediting agency recognized by the United States Department of Education, preferably including some course work in mathematics; or any equivalent combination of education and experience.

Licenses & Certifications:

A valid Texas issued Class C Driver's license is required. Must obtain a Texas Commission on Environmental Quality (TCEQ) Class D Water Operator License within nine months from date of employment. **Employment will be terminated if a passing score of at least 70% is not achieved on the first "D" certification exam attempt.** Must obtain and hold a "C" certification in water treatment within two years. Schooling to obtain credit hours to test for certification will be provided by the company. Exceptions to the time frame for obtaining these licenses can be made by the General Manager.

Physical Demands:

The physical demands described here are representative of those that must be met by an employee to successfully perform the essential functions of this job. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions. Must be able to climb up and down stairs while carrying loads of up to 50 lbs. Ability to open and close valves of various sizes manually by turning difficult-to-operate valve wheels. Ability to work under extreme weather conditions including wet weather and hot and cold ambient temperatures. Must be able to withstand prolonged periods of walking while checking treatment equipment and taking required readings. Tasks involve bending, lifting, walking, carrying or using a force equal to lifting 50 to 100 lbs. Hydrant
